Factors in Degree Attainment 17

Activities, Work, and Internships While Attending UA 22

Post-Graduation Plans and Employment 30

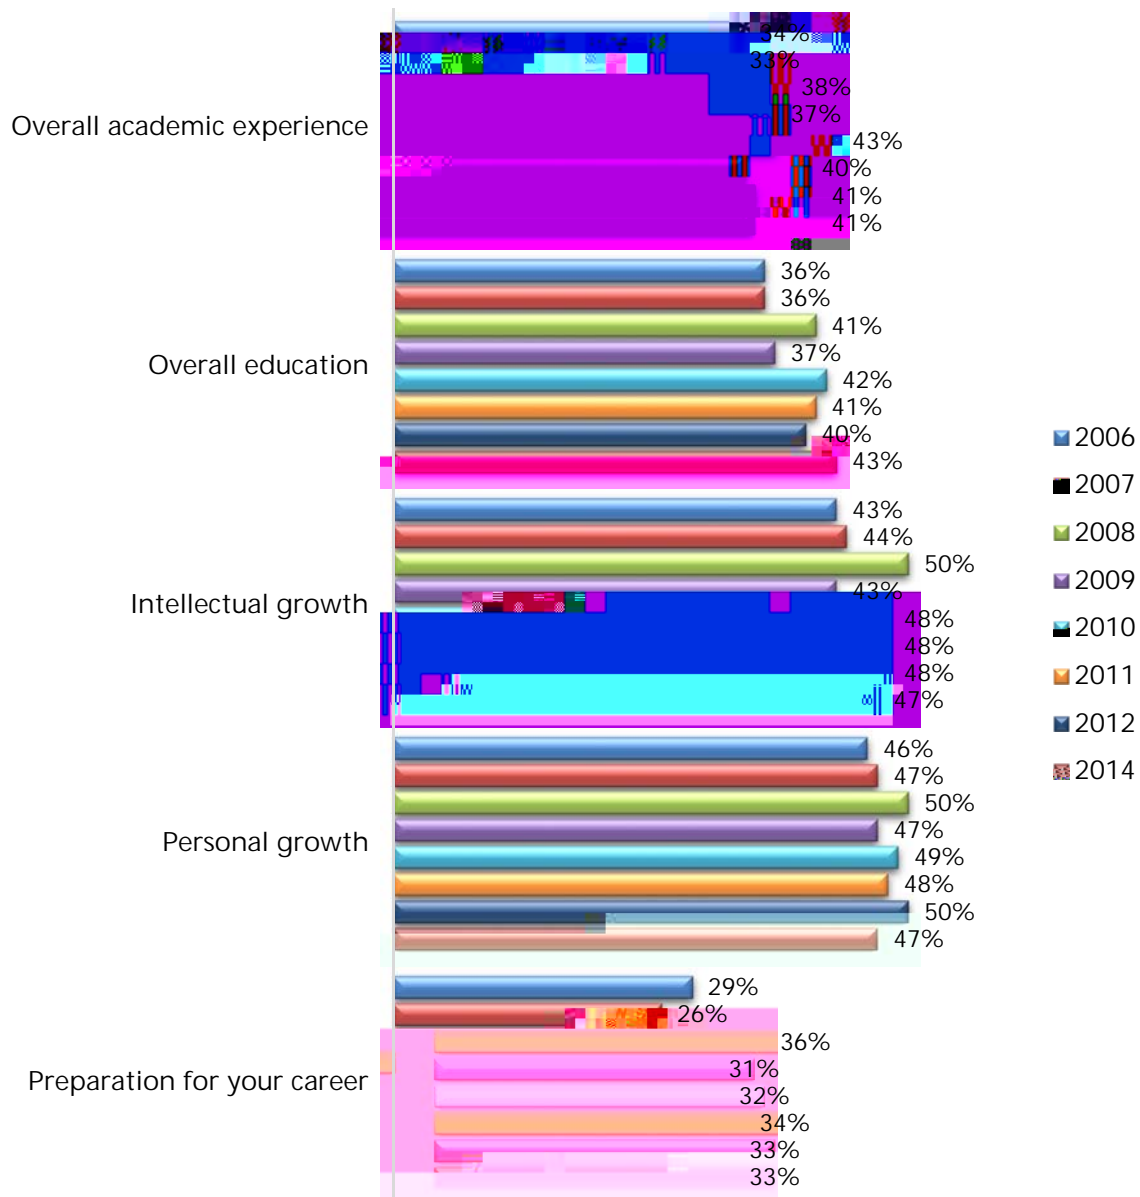

Job Search

The chart below shows how “very satisfied” rates have changed since 2006, when the survey commenced. The “very satisfied” rates are shown, rather than net satisfied rates, because net satisfied rates tend to represent the vast majority of the graduate population (80 to 90 percent), and do not change as much over time.

Intellectual and personal growth have consistently been the highest rated categories, while career preparation has consistently been the lowest. Overall, very satisfied rates have increased over the course of the survey for all but one category, personal growth (which has stayed fairly consistent at between 46 and 50 percent). The category showing the largest increase in ratings is academic experience, with the rate of those very satisfied starting at 33-34 percent in 2006-07, and increasing to 41 percent in both 2012 and 2014. Overall education ratings increased from 36 percent in 2006-07 to 43 percent in 2014. Career preparation ratings increased from 26-29 percent in 2006-07 to 33-34 percent in 2011-14. Intellectual growth ratings increased more modestly, from 43 percent in 2006 to 47-48 percent in the last several survey years.

“Very Satisfied” Ratings, 2006-2014

Job Search

UA graduates who were currently employed, and who had obtained their position after starting their degree program, reported applying for an average of 13.4 jobs, down from the 2012 average of 14.0. The average number of job offers was 1.7, slightly down from the 2012 average of 1.8.

Over time, the average number of job applications increased steadily, from 6.6 in 2006 to the 2012 peak of 14.0. The number of job offers received declined slightly: from 2.1 in 2006, to 1.7 in 2010, 2011, and 2014.

Average Number of Job Applications and Job Offers, 2006-2014
Base: Currently Employed; Obtained Position After Starting Degree Program

Over half of employed graduates (56 percent) said the process of finding a job was easy or very easy, while 41 percent said it was difficult or very difficult. Those giving easy ratings increased between 2012 and 2014, from 51 to 56 percent, while those giving difficult ratings decreased from 46 to 41 percent. However, in the longer term, difficulty ratings have been increasing: from 29 percent in 2007 to 46 percent in 2012. Easy ratings fell from 65-66 percent in 2007-08 to 51 percent in 2012.

Ease versus Difficulty of Finding a Job
Base: Currently Employed; Obtained Position After Starting Degree Program

Notes: Excludes •don't know.Ž •EasyŽ includes •very easyŽ; •DifficultŽ includes •very difficult.Ž

Distance Education

Graduates have become much less likely to take all of their classes in person over time, dropping from 41 percent in 2008 to 22 percent in 2014. Those taking most of their classes in person has increased, from 40 percent in 2008 to 49 percent in 2014. Those taking half, some, or none of their classes in person also increased, from 19 percent in 2008 to 28 percent in 2014.

Graduates Reporting Number of Classes Taken in Person, 2008-2014
(As opposed to via video/audio conference, correspondence, internet, etc.)

Using UA Knowledge and Skills

Over half of employed graduates (57 percent) report using the knowledge and skills they gained in their UA degree program on a daily basis, while 18 percent report using them rarely. Other responses included weekly at 18 percent and monthly at 5 percent.

Over time, the percentage of respondents using their skills daily has decreased, from 67-68 percent in 2006-07, down to 56-58 percent in 2011-14. Meanwhile, those using their skills rarely has increased, from 13-14 percent in 2006-08 to 18-20 percent in 2011-14.

Graduates Using Knowledge/Skills from Degree Program “Daily” versus “Rarely”, 2006-2014
Base: Currently Employed

Notes: Excludes •weekly,Ž •monthly,Ž and •don•t know.Ž

Shaping Alaska's Future

Several questions were added to the 2014 survey in reflection of the Shaping Alaska's Future initiative. One

Introduction and Methodology

Introduction

The University of Alaska contracted with McDowell Group, Inc. to conduct a survey of UA graduates who had received any type of degree or certificate from UA in summer 2013, fall 2013, or spring 2014. The survey was administered over the internet and included questions on graduates' satisfaction with their experience at UA; factors in attaining their degree; details on career preparation and their job search; and current employment situation, among other subjects. This is the eighth survey of graduates administered by McDowell Group; previous surveys were conducted annually between 2006 and 2012. The survey was not administered in 2013.

Methodology

The McDowell Group study team designed the survey instrument with input from University of Alaska staff. The survey was based on the previous instrument, with several new questions and minor edits. A copy of the survey instrument can be found at the end of the report.

The sample included 1,277 respondents: 631 UAA graduates, 469 UAF graduates, and 164 UAS graduates. The overall response rate was 28 percent; by campus, response rates were 25 percent for UAA, 33 percent for UAF, and 26 percent for UAS.

An initial postcard mailing was sent in early September 2014 to 4,592 graduates. The postcard directed graduates to the survey website and included information on the incentive. All participants were entered into a drawing to win their choice of a \$300 Amazon gift certificate or 10,000 Alaska Airlines miles. On September 9, an email was sent to all graduates that included a web link to the survey. One reminder email was sent on September 18.

The maximum margin of error for the full sample of grad

year: December, instead of the usual September. The lengthening of the survey over time is likely to impact response rates as well. The rate of 28 percent for 2014 may warrant a more appealing incentive, or perhaps a second reminder email, the next time the survey is administered.

Survey Sample Sizes and Response Rates, 2006-2014

	Sample Size	Response Rate
2006	512	19%
2007	905	32%
2008	941	31%
2009	1,213	35%
2010	1,133	32%
2011	1,156	31%
2012	1,030	25%
2014	1,277	28%

Satisfaction with University of Alaska

Satisfaction by Category

- x Graduates expressed high levels of satisfaction with their UA experience, with nearly nine out of ten satisfied or very satisfied with overall education (88 percent) and intellectual growth (87 percent). Only slightly fewer were satisfied with their personal growth (85 percent) and overall academic experience (84 percent). Preparation for career showed a somewhat lower net satisfaction of 70 percent.

OVERALL ACADEMIC EXPERIENCE

- x By campus, net satisfaction with the overall academic experience was highest at UAS (90 percent), followed by UAF (88 percent) and UAA (81 percent). UAS and UAF graduates were more likely to be very satisfied with their overall academic experience, compared to UAA graduates (50, 49, and 34 percent respectively).
- x By degree type, net satisfaction was fairly consistent, with 85 percent of AA/CT, 83 percent of BA, and 82 percent of MA/PhD graduates reporting satisfaction.
- x By fields of study, net satisfaction was highest amongst engineering graduates (93 percent), followed by business/public administration (89 percent), and voc/ed graduates (87 percent).

OVERALL EDUCATION

- x Net satisfaction with overall education by degree type was higher among AA/CT graduates (90 percent) and BA graduates (88 percent) than among MA/PhD graduates (83 percent).
- x Engineering graduates had the highest overall education net satisfaction rating at 98 percent, followed by voc/ed (92 percent), and math/science/computer and business/public administration (both 89 percent). The lowest net satisfaction rating was 84 percent among education graduates.

INTELLECTUAL GROWTH

- x In terms of intellectual growth, UAF showed a slightly higher net satisfaction rating at 90 percent, compared with 87 percent for UAS and 85 percent for UAA.
- x Net satisfaction with intellectual growth was consistent across different degree types.
- x Engineering graduates has the highest net satisfaction rating at 99 percent. Additional majors with a net satisfaction rating over 90 percent were health and education (91 and 90 percent, respectively). Arts/humanities/social sciences had the lowest net satisfaction rating at 84 percent.

PERSONAL GROWTH

- x Personal growth net satisfaction was highest at UAS with 90 percent of graduates reporting satisfaction. UAF followed with 88 percent net satisfaction, and UAA had 81 percent of graduates reporting satisfaction.
- x MA/PhD graduates had the highest personal growth net satisfaction rating at 88 percent, followed by AA/CT (86 percent) and BA graduates (82 percent).

- x Vocational education students reported the highest rate of net satisfaction with 89 percent satisfied with their personal growth. This was followed by engineering (88 percent) and math/science/computer graduates (85 percent). All remaining fields of study had a net satisfaction of 84 percent.

PREPARATION FOR CAREER

- x UAA graduates reported lower net satisfaction ratings with career preparation (67 percent) than UAF graduates (74 percent) and UAS graduates (73 percent).
- x By degree type, MA/PhD graduates had the highest net satisfaction rating at 76 percent, followed by AA/CT graduates at 74 percent. BA graduates had a net satisfaction rating of 62 percent.
- x The three fields with the highest net satisfaction ratings with career preparation were health (83 percent), education (82 percent), and vocational education (80 percent). Three majors had net satisfaction ratings under 70 percent: engineering (68 percent), math/science/computer (65 percent), and arts/humanities/social sciences (57 percent).

TRENDS

Note: The discussion below refers only to those •very satisfied,Ž as the net satisfaction rates (•satisfiedŽ plus •very satisfiedŽ) account for the vast majority of graduates (generally 80 to 90 percent), and have stayed fairly steady over time. Recent results (2012 and 2014) can be found in the following table. Long-term results (2006-2014) are shown in the subsequent table.

- x For all campuses combined, 2014 satisfaction ratings varied little from 2012 ratings. The percentage of graduates who gave a very satisfied rating stayed the same for career preparation and overall academic experience. Those very satisfied with their overall education increased from 40 to 43 percent; those very satisfied with their intellectual growth went from 48 to 47 percent; and those very satisfied with their personal growth dropped slightly from 50 to 47 percent.
- x Differences were slightly more pronounced on the campus level.
 - o UAA graduates who were very satisfied dropped slightly between 2012 and 2014 in several categories: overall academic experience (38 to 34 percent), intellectual growth (45 to 42 percent), and personal growth (46 to 40 percent).
 - o UAF graduates• very satisfied ratings increased between 2012 and 2014 in all categories: overall academic experience (43 to 49 percent), overall education (41 to 47 percent); intellectual growth (48 to 54 percent), personal growth (54 to 56 percent); and career preparation (35 to 36 percent).
 - o UAS graduates• very satisfied ratings dropped in several categories: from 59 to 53 percent for intellectual growth, from 60 to 52 percent for personal growth, and from 45 to 40 percent in career preparation.
- x This series of satisfaction questions has stayed mostly consistent since the survey began in 2006, allowing for long-term trend analysis. Overall, •very satisfiedŽ ratings have increased over time in most categories. Please see Table 2 for a breakout of the long-term trend data by campus.
 - o Those very satisfied with their overall academic experience have increased from 33-34 percent in 2006-07 to 40-41 percent in 2011, 2012, and 2014.

o

Engage in civic matters				

- x Those currently pursuing their originally chosen degree dropped in 2014, from 63 to 57 percent. The 2011 response was 60 percent.

Choice of Field of Study

- x When 2014 graduates were asked if they could start college over again, would they choose the same field of study, over half of graduates (55 percent) said they would. Nearly one-quarter (24 percent) said they maybe would, while 16 percent said they would not. Responses were fairly similar across all campuses and types of degrees.
- x Those graduates studying health and engineering were more likely to respond they would choose the same field of study again, at 72 and 66 percent respectively.
- x Nearly one-quarter of arts/humanities/social sciences graduates (24 percent) reported they would not choose the same field of study, while 20 percent of voc/ed graduates reported the same.

TRENDS

- x The percentage of graduates who said they would choose the same field of study has fluctuated slightly over the years, from 57-59 percent between 2006 and 2011, down to 53 percent in 2012, then 55 percent in 2014.
- x By MAU, results for 2014 are within a few percentage points of 2012.

Factors in Degree Attainment

Graduates were asked about the importance of various factors in helping them attain their degree: support from friends/classmates, family, UA faculty, UA staff, UA Career Services Center, and UA alumni; availability of financial aid; ability to work while going to school; ability to take some/all classes online; and love of learning/subject matter. Support from UA alumni was added in 2014.

- x There were two factors identified as being very important by 60 percent or more of graduates in helping them attain their degree: love of learning/subject matter (66 percent) and support from family (63 percent).
- x An additional three factors were identified by over half of graduates as being very important: ability to work while going to school (59 percent), support from UA faculty (51 percent), and availability of financial aid (51 percent).
- x Factors with the lowest very important ratings were support from Career Services (14 percent) and support from UA alumni (8 percent). It should be noted in each of these categories, 40 percent or more reported •not applicable/did not use.Ž
- x UAS graduates were more likely to cite ability to work while going to school as very important (70 percent), compared to UAA and UAF (both 57 percent). The ability to take some/all classes online was also very important to UAS students (64 percent), compared to 41 percent of UAA graduates and 39 percent of UAF graduates.
- x AA/CT graduates were most likely to cite four factors as being very important to help them attain their degree:
 - o Twenty-three percent cited support from Career Services as very important, compared to 12 percent of BA graduates and 4 percent of MA/PhD graduates.
 - o Over half (51 percent) identified the ability to take some/all classes online as very important, compared to 40 percent of BA graduates and 38 percent of MA/PhD graduates.
 - o Support from family and friends very important for 69 percent of AA/CT graduates, compared to 60 percent of BA graduates and 58 percent of PhD graduates.
 - o The availability of financial aid was very important to 59 percent of AA/CT graduates, compared to 51 percent of BA graduates and 42 percent of MA/PhD graduates.
- x MA/PhD graduates were most likely to cite two factors as being very important to help them attain their degree:
 - o Nearly half (47 percent) reported support from friends/classmates as being very important compared to AA/CT (38 percent) and BA graduates (39 percent).
 - o Support from UA faculty was mentioned by 58 percent of MA/PhD graduates, compared to 46 percent of AA/CT graduates and 49 percent of BA graduates.
- x There were also statistically significant differences by field of study. The following pairs are the highest percentage field of study and the lowest percentage field of study in each support factor.

- o Those giving a very important rating to UA staff support has ranged between 40 and 43 percent.
 - o Those giving a very important rating to friend/classmate support has ranged between 40 and 42 percent.
 - o Those giving a very important rating to Career Services support shows a slight increase over time: from 10 percent in 2010, to 11 percent in 2011, to 13 percent in 2012, to 14 percent in 2014.
- x By MAU, very important ratings show slight changes over time.

Distance Education

- x Seventy-one percent of UA graduates attended most or all of their classes in person, with nearly half (49 percent) attending most classes in person. Twenty-eight percent of UA graduates attended half or less of their classes in person.
- x Over one-quarter of UAS graduates (28 percent) attended none of their classes in person, compared to 5 percent of UAA graduates and 4 percent of UAF graduates.
- x One-third (34 percent) of MA/PhD graduates attended all classes in person, compared to 24 percent of AA/CT graduates and 17 percent of BA graduates.
- x BA graduates were much more likely to attend most classes in person at 69 percent, compared to 39 percent of AA/CT graduates and 25 percent of MA/PhD graduates.
- x One-fifth (21 percent) of education graduates attended no classes in person, the highest percentage of all fields of study.

TRENDS

Note: This question was added in 2008.

- x The percentage of graduates who attended all their classes in person has dropped steadily over the years, from 41 percent in 2008, to 32 percent in 2009, to 29 percent in 2010, to 26 percent in 2011, to 27 percent in 2012, to 22 percent in 2014.
- x

Attended none of my classes in person	6	8	1	3	10	16

Working While Attending UA

- x Three-quarters of respondents (75 percent) worked during their final year of school. UAS graduates had a slightly higher percentage with 81 percent working during their final year, compared to 74 percent of both UAA and UAF graduates.

x

Table 16. Did you work on-campus, off-campus, or both?

Internships

- x One-third of graduates participated in an internship as part of their degree/certificate program. This was similar across all MAUs.
- x MA/PhD graduates were more likely to have participated in an internship, compared to AA/CT and BA graduates, 39 percent versus 34 and 25 percent, respectively.
- x Education graduates were the most likely to have participated in an internship at 81 percent, followed by health graduates (50 percent) and business/public administration graduates (28 percent). Arts/humanities/social sciences graduates were the least likely to have participated in an internship at 18 percent.
- x Of the graduates who had participated in an internship, over one-quarter of internships (27 percent) were based in school districts.
 - o Nearly half of UAS graduates (45 percent) reported their internships were based in the school district, compared to 27 percent of UAA graduates and 18 percent of UAF graduates.
 - o Over half (52 percent) of MA/PhD graduates' internships were in the school districts, compared to 15 percent of BA graduates and 8 percent of AA/CT graduates.
- x The majority of the internships overall, and across all MAUs and degree types, were unpaid. An exception to this was engineering graduates, 56 percent of whom were paid \$20 or more hourly.
- x Overall, and across all MAUs and degree types, the majority of internships were not coordinated through their campus Career Services Center.
- x Of those that participated in an internship, 41 percent resulted in a job offer. UAF had the highest percentage at 44 percent of graduates being offered a job, compared to 30 percent of UAS graduates. MA/PhD graduates' internships were least likely to result in a job offer, with only 19 percent reporting a job had been offered, compared to 51 percent of AA/CT graduates and 46 percent of BA graduates.
- x Of those offered a job, nearly two-third of graduates (65 percent) accepted the job.

TRENDS

Note: The question about whether the graduate had participated in an internship referred to an internship or practicum in 2006 and 2007. The questions "With what organization?" and "Did you take the job?" and hourly wage were introduced in 2011.

- x The proportion of graduates participating in internships declined by only a few percentage points over the last several years, from 36 percent in 2010, to 34 percent in 2011 and 2012, to 33 percent in 2012. The question included "practicums" in 2006 and 2007 which may explain the higher percentages in those years: 43 and 45 percent, respectively.
- x Those reporting that their internship was unpaid dropped from 67 percent in 2012 to 62 percent in 2014. (The rate in 2011 was 64 percent.) Those earning \$16/hour or more increased from 14 percent in 2012 to 21 percent in 2014.
- x School district has remained the most common type of internship organization over the years, although the percentage mentioning it dropped from 35 and 36 percent (2011 and 2012) to 27 percent in 2014. Those mentioning hospital/clinic/doctor's office stayed steady at 13 percent all three years. Those

mentioning University of Alaska went from 10 percent in 2011, to 6 percent in 2012, to 10 percent in 2014.

- x The percentage of internship participants reporting their internship was coordinated through the Career Services Center dropped slightly in the last several years, from 10 and 11 percent in 2008 and 2009, to 8 percent in 2011 and 2012, to 7 percent in 2014.
- x The percentage of internship participants reporting that their internship lead to a job offer increased to 41 percent in 2014, after three years at 34 percent. (Rates for 2006 and 2007 were higher at 46 and 47 percent, but may be related to the inclusion of practicums in the original question.)
- x Those saying that they took the job offer has fluctuated over the last three years, from 71 percent in 2011, to 80 percent in 2012, to 65 percent in 2014.

Post-Graduation Plans and Employment

Post-Graduation Plans

Respondents were asked to report their post-graduation year plans. Multiple responses were allowed.

x Nearly three-quarters of graduates (72 percent) re

Current Primary Activity

Respondents were asked to identify one primary activity in their post-graduate year.

- x The activity with the highest percentage was employment, accounting for 71 percent of respondents. Additional graduate study was reported by 9 percent of respondents, and additional undergraduate study was reported by 8 percent of respondents. Starting/raising a family was reported by 7 percent.
- x Responses were similar across all MAUs..7(5(aisingC i4A4Tf -3177545 -2.1916 TD 0 Tc 0 Tw <0078>Tj /TT8 1 Tf .46

Place of Residence

- x Eighty-four percent of graduates currently reside in Alaska, while 14 percent reside in another US state and 2 percent outside the US.
- x UAA and UAS graduates were slightly more likely to reside in Alaska (86 and 85 percent, respectively) than UAF graduates (79 percent).
- x AA/CT graduates were more likely to live in Alaska (90 percent), compared to 83 percent of BA graduates and 73 percent of PhD graduates.
- x Education graduates were most likely to reside in Alaska (91 percent), followed by voc/ed (88 percent), business/public administration (85 percent), health (84 percent), math/science/computer (82 percent), arts/humanities/social sciences (80 percent), and engineering (79 percent).

TRENDS

Note: This question was changed from asking those currently employed where

- x Engineering graduates were most likely to report full-time, year-round employment (57 percent), followed by business/public administration (55 percent) and education graduates (53 percent). Only one-third of math/science/computer graduates (33 percent)

- x Health graduates (78 percent) and education graduates (76 percent) were most likely to use their skills on a daily basis. Arts/humanities/social sciences graduates had the lowest daily use rate, at just 37 percent.

TRENDS

- x While the percentage of employed graduates using skills learned at UA has been relatively consistent the last several years (56 to 58 percent in 2011, 2012, and 2014), they have been dropping over the long-term: 67 and 68 percent in 2006 and 2007, 66 percent in 2008, 63 percent in 2009, and 62 percent in 2010.
- x Conversely, those using their skills rarely have been increasing: from 13-14 percent in 2006, 2007, and 2008, to 19 percent in 2009, 16 percent in 2010, 20 percent in 2011 and 2012, and 18 percent in 2014.

Table 29. In your current position, how often do you use skills and knowledge learned from your UA degree or certificate program?

Table 31. What occupation or position do you hold?
(

- x Over one-third of AA/CT graduates (35 percent) started their current positions after graduating, compared to 54 percent of BA graduates and 48 percent of MA/PhD graduates.
- x Engineering graduates were the most likely to start their current positions after graduation (70 percent), followed by health graduates (62 percent) , and education graduates (52 percent).

TRENDS

- x Employed graduates who started in their current position after graduating fell from 52 percent in 2012 to 47 percent in 2014. This rate has fluctuated over the years: 51 percent in 2006, 50 percent in 2007, 48 percent in 2008, 49 percent in 2009, 44 percent in 2010, and 45 percent in 2011.
- x The rates for those who started working before attending UA have likewise fluctuated over the years, ranging from 17 percent (in 2009) to 24 percent (2010). The rate for 2014 fell in the middle of this range at 20 percent.
- x The percentage of those starting their current position while attending UA has risen slightly over the years, starting at 26 percent in 2006, ending at 33 percent in 2014.

Table 32. When did you start working in your current position:
before attending UA, while attending UA, or after graduating from UA?
(Base: Currently employed)

	TOTAL		UAA		UAF		UAS	
	2012 n=647	2014 n=761	2012 n=322	2014 n=379	2012 n=231	2014 n=269	2012 n=88	2014 n=104
Before attending UA	18%	20%	16%	18%	17%	17%	30%	33%
While attending UA	29	33	30	33	29	34	29	31

Salary and Benefits

- x Among all graduates, the most common annual salary/wage was between \$50,001 and \$75,000 (21 percent), followed by 18 percent of graduates at \$35, 001 to \$50,000 annually. The average annual salary was \$40,000. Twelve percent of all graduates reported they did not earn a salary/wage.
- x UAS graduates had a higher average annual salary (\$46,000) than UAA (\$39,000) and UAF graduates (\$38,000).
- x MA/PhD graduates reported the highest mean annual salary at \$54,000, compared to AA/CT graduates• \$34,000 and BA graduates• \$37,000.
- x Engineering graduates had the highest mean annual salary at \$56,000, followed by education (\$49,000), business/public administration (\$47,000), health (\$43,000), and voc/ed (\$41,000). Math/science/ computer graduates reported the lowest mean annual salary at \$27,000.

TRENDS

Note: Results for 2006 are not comparable because the question was only asked of employed graduates.

- x The reported average salary of graduates has increased slightly over the years, but does not appear to have kept up with inflation. More recently, the average salary increased by \$2,000 in each of the last two survey years. Average salary rates were \$37,000 in 2007, \$36,000 in 2008, \$37,000 in 2009, \$38,000 in 2010, \$36,000 in 2011, \$38,000 in 2012, and \$40,000 in 2014.
- x Those not currently earning any income stayed consistent over the years at 12 percent in 2008, 2009, 2010, 2012, and 2014. Exceptions were 10 percent in 2007 and 14 percent in 2011.

Difficulty in Finding a Job

- x Over half of employed graduates (56 percent) reported the process of getting a job

Number of Applications and Offers

- x Employed graduates, on average, applied for 13.4 jobs during their employment search.
- x UAS graduates applied for the least amount of jobs, with a mean of 6.9 jobs, compared to UAA's 13.1 and UAF's 16.4 jobs.
- x MA/PhD graduates applied for the most jobs, 16.6 on average, compared to AA/CT (11.2 jobs) and BA graduates (13.2 jobs).
- x Employed graduates received an average of 1.7 job offers. This was similar across MAUs and degree types.

TRENDS

- x Among currently employed UA graduates, the average number of jobs applied for dropped slightly in 2014, from 14.0 to 13.4. Previously this average had been on a long-term growth trend: 6.6 in 2006, 6.8 in 2007, 8.6 in 2008, 10.6 in 2009, 12.0 in 2010, 13.0 in 2011, and 13.4 in 2012.
- x Despite the growing number of applications, the average number of job offers has stayed fairly consistent over the years, ranging between 1.7 and 1.9 2007 to 2014, with the 2014 rate at 1.7. The only exception is 2006, with a higher rate of 2.1.

Sources for Current Position

- x When graduates were asked how they had first heard about their current position, the most common response was family/friends/co-workers (27 percent), followed by company/organization's website (14 percent); other website (12 percent); and recruited, a previous employer, and UA staff/faculty (all at 7 percent).
- x Results were similar across all MAUs.
- x MA/PhD graduates were less likely to hear about their current position from friends/family/co-workers (18 percent), compared to AA/CT (31 percent) and BA graduates (29 percent).

TRENDS

Note: The answer codes for this question have changed over the years to accommodate changing habits.

- x Family/friends/co-workers has been the number one response since the survey began in 2006, representing

- x The percentage citing UA staff/faculty decreased slightly over time, from 11 percent in 2006 to 7 percent in 2014.

Continuing Education

Current Enrollment Status

- x Thirty percent of graduates said they were currently enrolled in a college or university class. This was similar across all MAUs.
- x Nearly half of AA/CT graduates (49 percent) reported they were currently enrolled in a class, compared to 25 percent of BA graduates and 12 percent of MA/PhD graduates.
- x Fields of study with the highest percentage of current enrollees included voc/ed at 41 percent, arts/humanities/social sciences at 40 percent, and math/science/computer at 34 percent.
- x Of current enrollees, 86 percent were pursuing a degree. UAA graduates were the most likely to be pursuing a degree at 91 percent, followed by UAF at 83 percent and UAS at 78 percent.
- x Of current enrollees, AA/CT graduates were most likely to be pursuing a degree (96 percent), compared to BA (81 percent) and MA/PhD graduates (57 percent).
- x Of those pursuing a degree, 50 percent were pursui

- x The percentage of degree-seekers pursuing an MA has decreased in recent years: from a high of 38 percent in 2008, to 36 percent in 2009, 33 percent in 2010, 37 percent in 2011, 32 percent in 2012, and 31 percent in 2014.
- x The percentage of degree-seekers pursuing an AA has ranged between 7 and 11 percent over time, with the 2014 rate in the middle at 9 percent.
- x The percentage of degree-seekers studying business increased from 16 percent in 2012 to 21 percent in 2014. Previous rates were 19 percent in 2009, 17 percent in 2010, and 18 percent in 2011.
- x Those studying social sciences increased from 6 percent in 2012 to 11 percent in 2014. Previous rates fell in between these figures.
- x Those studying education decreased from 17 percent in

Social Responsibility

This series of questions was introduced in 2014 in response to the •Shaping Alaska’s FutureŽ initiatives.

- x Nearly nine out of ten graduates (87 percent) were registered to vote, ranging from 83 percent among UAF graduates, to 87 percent among UAA graduates, to 95 percent among UAS graduates.
- x Among registered voters, three-quarters (74 percent) voted in their last state election, while 64 percent voted in their last local election. Rates for both types of elections were higher among UAS graduates and lower among UAF graduates.
- x Based on the total survey population (not just those registered to vote), 56 percent of all graduates voted in their last location election, and 65 percent voted in their last state election.

Table 53. Are you currently registered to vote?

Table 56. In the last six months, have you volunteered for any non-profit organization?

	TOTAL n=1,277	UAA n=631	UAF n=469	UAS n=164
Yes	54%	51%	56%	57%
No	45	47	42	42
Don't know	2	2	2	1

Table 57. In the last six months, have you donated any money or other resources to non-profit causes?

	TOTAL n=1,277	UAA n=631	UAF n=469	UAS n=164
Yes	61%	62%	57%	63%
No	38	37	40	37
Don't know	2	1	3	-

UA Graduate Profile

The following information shows results from data provided by the University of Alaska on their graduate population. Survey data closely matched these percentages.

Table 58. UA Database: Gender and Age

2014 TOTAL	
Gender	
Female	61%
Male	39
Age	
Under 25	31%
25-40	51
Over 40	17

Question 29c: What type of degree will you pursue?

UAA

One with masters in Dental Hygiene
Online Master's Program

UAF

UAS

Question 29d: In what field of study?

UAA
Culinary Arts x2
Outdoor recreation
Safety
Transportation

UAF
Automotive Mechanics
Heavy Diesel Mechanic

UAS

Question 34: What type of loans did you take out?

UAA
Credit card.

UAF

UAS

Survey Instrument

See attached.

UA Recent Alumni Survey 2014

Welcome! The University of Alaska is conducting a survey of recent alumni. Your opinion matters to us. Your responses will help the University better serve its students in the future. Those who complete the

5. How important were each of the following factors in helping you attain your degree?

	01 Very Important	02 Somewhat important	03 Not important	04 Not applicable/ Did not use	05 Don't Know
a. Support from friends/classmates	01	02	03	04	05
b. Support from family	01	02	03	04	05
c. Support from UA faculty	01	02	03	04	05
d. Support from UA staff	01	02	03	04	05
e. Support from Career Services Deleted Center	01	02	03	04	05
f. Availability of financial aid	01	02	03	04	05
g. Ability to work while going to school	01	02	03	04	05
h. Ability to take some/all classes online	01	02	03	04	05
i. Love of learning/subject matter	01	02	03	04	05
j. Support from UA alumni	01	02	03	04	05

6. Which of these was the most important factor in helping you attain your degree/certificate?

- 01 ^ Support from friends/classmates
- 02 ^ Support from family
- 03 ^ Support from UA faculty
- 04 ^ Support from UA staff
- 05 ^ Support from Career Services Center
- 06 ^ Availability of financial aid
- 07 ^ Ability to work while going to school
- 08 ^ Ability to take some/all classes online
- 09 ^ Love of learning/subject matter
- 10 ^ Support from UA alumni
- 11 ^ None of these

7. Looking back, how important were each the following in helping you form your educational goals beyond high school?

01 Very Important	02 Somewhat important	03 Not important	04 Not applicable/ Did not use	05 Don't Know
----------------------	--------------------------	---------------------	--------------------------------------	------------------

d. Other family members	01	02	03	04	05
e. UA faculty	01	02	03	04	05
f. UA academic advisor	01	02	03	04	05
g. High school counselor	01	02	03	04	05
h. Needs of your community	01	02	03	04	05

8. If you could start your college career all over again, would you choose the same field of study?

- 01 ^ Yes
- 02 ^ No
- 03 ^ Maybe
- 04 ^ Don't know

9. Which of the following statements best describes your plans when you started your degree/certificate program with UA?

- 01 ^ I planned to obtain a degree/certificate from UA
- 02 ^ I planned to transfer to another school for my degree/certificate
- 03 ^ I had no formal plans, I was just taking classes

10. Which of the following statements best describes your career goals when you started your degree/certificate program with UA?

- 01 ^ I knew which field I wanted to pursue after graduating (ask Q10a)
- 02 ^ I planned to pursue an additional degree after graduating (ask Q10b)
- 03 ^ I didn't know what I would pursue after graduating
- 04 ^ Don't remember

10a. Are you currently working in that field? 01 ^ Yes 02 ^ No

10b. Are you currently pursuing that degree? 01 ^ Yes 02 ^ No

11. While you were attending UA, did you participate in any of the following groups or activities? (Check all that apply)

- 01 ^ Academic honors programs
- 02 ^ Alumni activities
- 03 ^ Clubs or organizations related to major
- 04 ^ Clubs or organizations related to minor/other academic subjects
- 05 ^ Fraternity or sorority
- 06 ^ Intramural (non-varsity) sports
- 07 ^ Minority student programs/activities (Native, Hispanic, etc.)
- 08 ^ Outdoor clubs
- 09 ^ Performing arts (dance, theater, music)
- 10 ^ Political or issue group
- 11 ^ Residence hall council or IRC
- 12 ^ Religious group
- 13 ^ ROTC
- 14 ^ Service/volunteer organizations
- 15 ^ Student Activities
- 16 ^ Student government
- 17 ^ Student judicial board

13b. Approximately how many hours per week did you work? (If you worked on and off campus, answer both columns; otherwise just answer for the appropriate column.)

	On Campus		Off Campus
01 ^	10 hours or less	01 ^	10 hours or less
02 ^	11-20 hours	02 ^	11-20 hours
03 ^	21-40 hours	03 ^	21-40 hours
04 ^	Over 40 hours	04 ^	Over 40 hours
05 ^	Don't know	05 ^	Don't know

14. Was any of your work related to your degree or certificate program?

- 01 ^ Yes
- 02 ^ No
- 03 ^ Don't know

15. Which of the following are you pursuing (or planning to pursue) in your post-graduation year? (Check all that apply)

- 01 ^ Working/employment/looking for a job
- 02 ^ Starting/raising a family

18. In what industry are you currently employed? (Check only one)

- | | |
|------------------------------------|---|
| 01 ^ Government | 10 ^ Health Care/Social Services |
| 02 ^ Mining/Oil | 11 ^ Media/Communications |
| 03 ^ Fishing/Seafood | 12 ^ Education |
| 04 ^ Tourism/Hospitality | 13 ^ Arts |
| 05 ^ Finance/Insurance/Real Estate | 14 ^ Information Technology |
| 06 ^ Construction/Maintenance | 15 ^ Professional Services (engineering, legal, consulting, research) |
| 07 ^ | |

21. In your current position, how often do you use skills and knowledge learned from your UA degree or certificate program?

01 ^ Daily

03 ^ Monthly

05 ^ Don't know

02 ^ Weekly ^

28. Are you currently enrolled in any college or university classes?

01 ^

UAF

- 09 ^ Fairbanks
- 10 ^ Bristol Bay
- 11 ^ Chukchi
- 12 ^ Interior-Aleutians
- 13 ^ Kuskokwim
- 14 ^ Northwest
- 15 ^ Tanana Valley

UAS

- 16 ^ Juneau
- 17 ^

30. Are you currently registered to vote?

- 01 ^ Yes
- 02 ^ No (skip to Q31)
- 03 ^ Don't know (skip to Q31)

30a. Did you vote in your last local election?

- 01 ^ Yes
- 02 ^ No
- 03 ^ Don't know

30b. Did you vote in your last state election?

- 01 ^ Yes
- 02 ^ No
- 03 ^ Don't know

31. In the last six months, have you volunteered for any non-profit organizations (schools, churches, service organizations, etc.)?

- 01 ^ Yes
- 02 ^ No
- 03 ^ Don't know

32. In the last six months, have you donated any money or other resources to non-profit causes?

- 01 ^ Yes
- 02 ^ No
- 03 ^ Don't know

33. Did you take out any loans in order to complete your UA degree/certificate?

- 00 ^ Yes
- 01 ^ No (skip to Q36)

34. What types of loans did you take out? Check all that apply.

- 01 ^ Private loan (Sallie Mae, Wells Fargo, etc.)
- 02 ^ Federal loan (Stafford, Perkins, PLUS, Direct)
- 03 ^ State of Alaska loan (ASEL, FEL)
- 04 ^ Personal loan from family member
- 05 ^ Personal loan from friend
- 06 ^ Other _____

35. How much did you borrow overall?

- 01 ^ Less than \$5,000
- 02 ^ \$5,001 to \$10,000
- 03 ^ \$10,001 to \$20,000
- 04 ^ \$20,001 to \$30,000
- 05 ^ \$30,001 to \$40,000
- 06 ^ \$40,001 to \$50,000
- 07 ^ \$50,001 to \$60,000
- 08 ^ Over \$60,000
- 09 ^ Don't know

36. Which category best describes your current annual salary or wage?

- 00 ^ \$0; do not currently earn a salary/wage
- 01 ^ Less than \$15,000
- 02 ^ \$15,001 to \$25,000
- 03 ^ \$25,001 to \$35,000
- 04 ^ \$35,001 to \$50,000
- 05 ^ \$50,001 to \$75,000
- 06 ^ \$75,001 to \$100,000
- 07 ^ Over \$100,000
- 08 ^ Don't know

37. What one thing can UA do to enhance the quality of student learning and success?
